

FEES

Fees per boost

Additional **fees from financial service providers** are deducted from Boost (contribution) and, if the project is successful (and only then!), a processing fee for Crowdify.net.

The **Payment Service Provider (PSP) service** used by Crowdify.net costs CHF 0.50 per transaction (excl. VAT). Additionally, fees for the following payment methods apply:

Twint: 1.3% excl. VAT

Postfinance: 2.0% excl. VAT

Credit cards (VISA): 1.25% excl. VAT

Credit cards (MasterCard): 1.25% excl. VAT

Paypal: 3.4% + CHF 0.55 per transaction, excl. VAT

Apple Pay / Google Pay: 2.9% + CHF 0.30 per transaction, excl. VAT

If the project is successful, the fees of the financial service providers are included in a flat platform fee of 9% (or 11% for stage funding). If the project does not materialise, only the fees from the financial service providers are deducted before repayment to the boosters, while the processing fee from Crowdify.net is waived.

Project fees

Once the project is successfully funded (and only then!), Crowdify deducts an **administration fee of 9% incl. VAT** (including financial service provider fees) **for options via stages 11%** of the total amount collected and transfers the remaining amount to project initiators.

In addition, social projects, projects with very high target amounts and “repeat offenders” (within 16 months) benefit from reduced project fees.

As of June 2024, amounts in CHF
